

Mental Health Inquiry e-Forum:

“Where to From Here?”

MHCC has designed an electronic public forum designed for anyone interested in developing and moving forward practical strategies around the implementation of the Mental Health Inquiry recommendations.

The Forum is structured around eight key topic areas identified in the Select Committee’s Final Report. These are:

- Organisation, Policy & Funding;
- Service Provision, Treatment & Care(ers);
- Housing & Homelessness;
- Multicultural & Indigenous Issues;
- Dual Diagnosis;
- Older People;
- Young People;
- Forensic Mental Health.

By participating in the e-forum you have the opportunity to:

- Respond to MHCC’s discussion points for moving forward the Inquiry’s recommendations;
- Post your own recommendations by selecting the relevant topic area and then ‘Start new topic’; and/or
- Provide constructive feedback on suggestions made by other users, through replying to posts.

Once practical strategies have been developed in this collaborative manner, users will be able to establish working parties around particular topic areas, with the support of MHCC and other interested peak bodies.
